Representative Experience

- Counseled AMC on research compliance and misconduct investigation issues through inquiry and investigation stages, ORI and NIH reporting, and related faculty grievance procedure matters.
- Prepared and negotiated biotechnology-related agreements, including clinical research agreements, noncompete agreements, confidentiality agreements, and material transfer agreements.
- Counseled on development of university on-site COVID testing laboratory for students, faculty and visiting athletes; assisted with expansion of laboratory into a community testing facility and navigated agreements with local government and regional employers.
- Assisted board member committee investigating Title IX-related student complaints against university President, and audit of public university internal complaint system for Title IX and related diversity and discrimination issues for faculty and employees.
- Served as lead counsel on multi-disciplinary affiliation of academic, medical, and research arms of preeminent AMC and nationally renowned children's hospital.
- Assisted numerous AMCs in compliance with, and developing systems for, foreign gift and contract reporting under U.S. Department of Education requirements.
- Advised faculty physician group through False Claims Act litigation concerning resident billing addressing compliance concerns and reaching favorable settlement.
- Directed comprehensive audit and regulatory analysis of physician contracts for research hospital and submitted Stark Law disclosure to CMS utilizing self-referral disclosure protocol; provided operational and corrective action recommendations related to audit findings.
- Advised a nonprofit AMC on compliance with U.S. Department of Education financial aid regulations, Clery Act compliance, Title IX provisions, accrediting agency recommendations, Office for Civil Rights (OCR) sexual harassment regulations, and ADA/ Section 504 requirements.
- Helped evaluate compliance with federal research regulations (informed consent/IRB issues), NIH Grants Policy Statement, and related federal regulations and investigations in area of pediatric and adult research.
- Guided numerous AMCs through evolving COVID-19 accreditation, CARES Act, Office of Federal Contract Compliance Program audit, Medicaid supplemental payment program and U.S. Department of Education regulatory issues.
- Conducted department-wide climate assessment in response to resident complaints of discrimination and noncompliance in AMC residency program and developed a plan for and coordinated discrimination, harassment and sexual misconduct investigations at top ranked AMC.
- Created family practice residency program affiliation between a private hospital and a major state university health science center and all related service agreements.
- Developed mission support arrangements between a teaching hospital and its affiliated medical school supporting clinical research, medical school operations, and faculty development.
- Assisted AMC with developing faculty training programs and higher education compliance issues for growing graduate school programs.
- Assisted top tier AMC with developing policies prohibiting patients from discriminating against providers and medical staff and coordinating medical provider ADA and other accommodations and adjustments.
- Advised student assistance programs on development, and provision of, counseling, peer support, and critical incident services for university systems
- Advised university system on forming, and administering, a fund to provide crime victims with behavioral health services

Relentless client focus.

At Husch Blackwell, we have built our law firm around one idea: to guide our clients from where they are to where they want to be. Our industry-centric approach gives us a deep understanding of what our clients face every day. But more than that, it creates a shared vision that moves our clients forward.
